INQUIRY INTO IMPACT OF THE WESTCONNEX PROJECT

Name: Dr Anthony Knittel

Date Received: 28 August 2018

The whole WestConnex project is deeply flawed: It is inconsistent with the NSW Government's policy to reduce the number of cars coming into the city and to reduce congestion; There has been inadequate planning and changing outcomes and the current goals of the project are not clear; It has a flawed business case based on assumptions that are no longer valid; There are serious threats to our city's liveability including reduced air quality and the massive loss of parkland, trees and valuable inner city land; and A there has been a serious lack of transparency and consultation with affected communities.
