

**INQUIRY INTO IMPACT OF THE WESTCONNEX
PROJECT**

Name: Name suppressed

Date Received: 31 August 2018

Partially
Confidential

I am concerned about unfiltered ventilation stacks and the long-term health impact to residents in all surrounding suburbs that will be unnecessarily caused because their existence across everywhere the WestConnex tunnels will be present.

Our property is located on top of a proposed WestConnex tunnel and I'm concerned that the land underneath our property will be compulsorily acquired, without any compensation provided, despite many reports from people who are over WestConnex tunnels under constructions complaining of significant adverse effects, such as unbearable noise and vibration.

I'm also concerned about the political considerations for this project - particularly that the residents experiencing the worst effects are located in safe Labor seats.
