Submission: Inquiry into the impacts of the WestConnex project

Our community wants and needs world class public transport, not more polluting toll roads. I oppose this project.

WestConnex is shaping up as the most expensive road project in the world but it won't solve Sydney's congestion problem. I oppose this project and as a tax payer want to see these funds used responsibly to uplift the community, not contaminate it.

It is my understanding that:

- Hundreds of homes, businesses and parklands will be compulsorily acquired.
- It is diverting funding from public transport which is desperately needed across Sydney.
- WestConnex will turn Rozelle into a dumping ground for toxic exhaust fumes with three unfiltered exhaust stacks at the Rozelle Rail Yards and one at Victoria Road at Iron Cove Bridge just metres from homes and a primary school.

Please don't destroy our community - invest in public transport, in our parks and lands and help your people live happier, healthier lives.

Regards,
