

**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Mrs Lyn McDonald

Date Received: 15 March 2021

It is a tragic state of affairs to hear and see the demise of these unique and much loved animals that are unique to Australia - after the tragic fires last year so many of the population of animals was depleted anyway, so to continue killing these much treasured Kangaroos is nothing short of being a crime and should be stopped at all costs.....I hope that your Parliament sees the tragedy that they are facing and make killing of these animals a crime subject to severe penalties.
