

**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ms Rahime Mine Aragon

Date Received: 26 April 2021

To the Commission, It is appalling to me and many many other Australians as well as all my relatives both in America and Europe, that a countries national icon can be so awfully disrespected. This animal is on our currency for goodness sake! People all over the world would be in shock if they knew the truth behind this industry!! Stop kangaroo culling now! Before we are a laughing stock to the rest of the world!!
